

THE BASIC COFFE  
CART

IMMERSIVE  
BUSINESS SOLUTIONS

# The Most Versatile Coffee Cart

Practical and easy to adapt to your needs, this is the most versatile coffee cart on the market.

Its versatility allows it to be used in unlimited ways, indoors or outdoors, as a pop-up coffee bar or as a streetwise coffee bike.

But this is not all there is to it. With no coffee machine or grinder included, the Basic Coffee Cart leaves plenty of room for a custom, budget-friendly approach when it comes to equipment.

This makes it the perfect business solution for budget conscious first time entrepreneurs or for already established businesses such as coffee shops, coffee supplies companies and distributors who can source their own professional coffee equipment at a discounted price.

# ONE COFFEE CART

## TWO TRACTION MODES

The Basic Coffee Cart can be connected to and towed by any ebike thanks to our patent-pending universal saddle hitch system.

### COFFEE BIKE MODE

4

### PUSH CART MODE

For increased maneuverability in outdoor and indoor locations, the Basic Coffee Cart is equipped with an ergonomic handlebar.

5

# The first Coffee Cart in the world designed to be towed by an e-bike

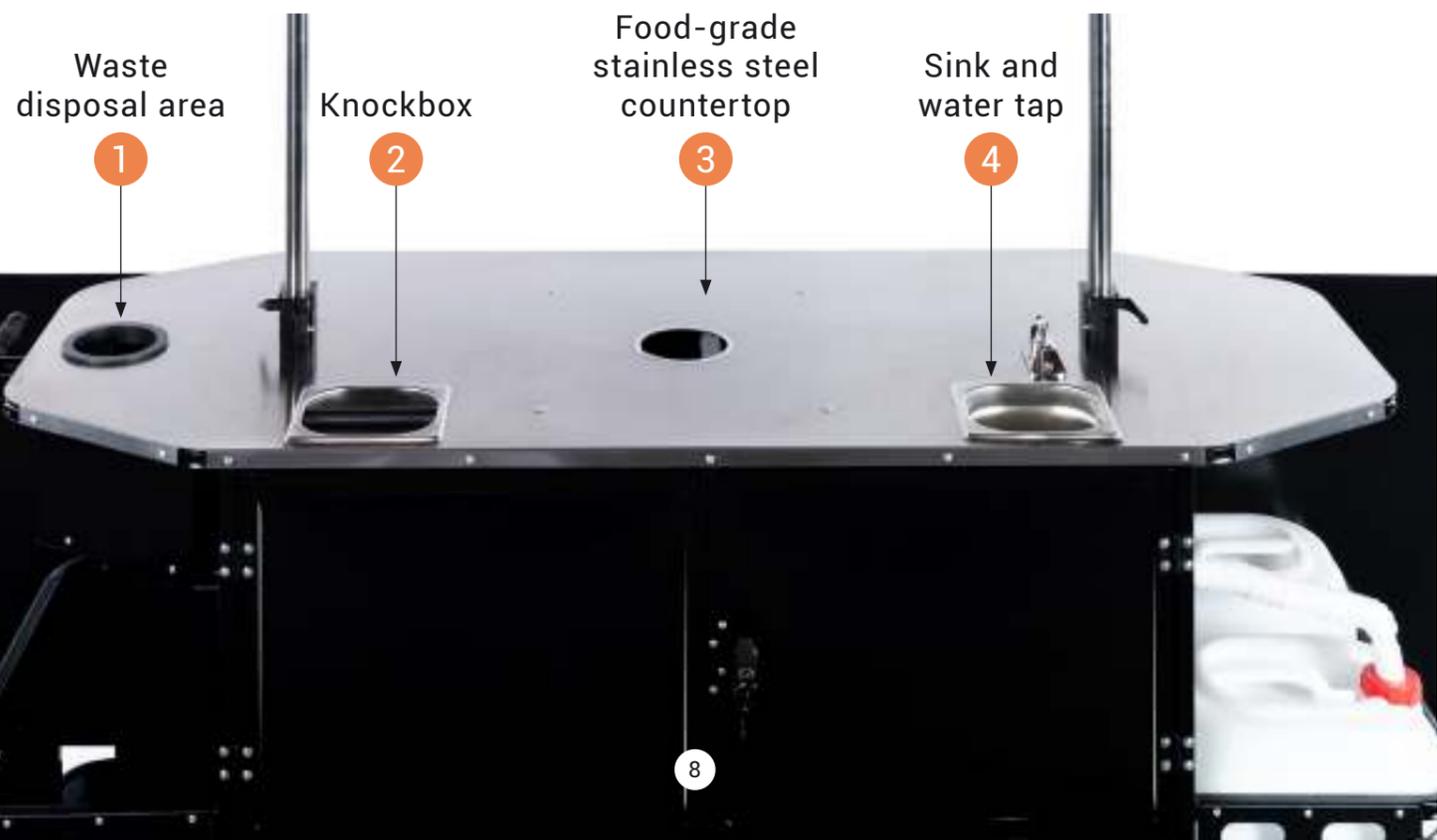

Paired with our specially designed electric chopper,  
the Basic Coffee Cart becomes a sleek Coffee Bike  
ready to take on the best spots in town.

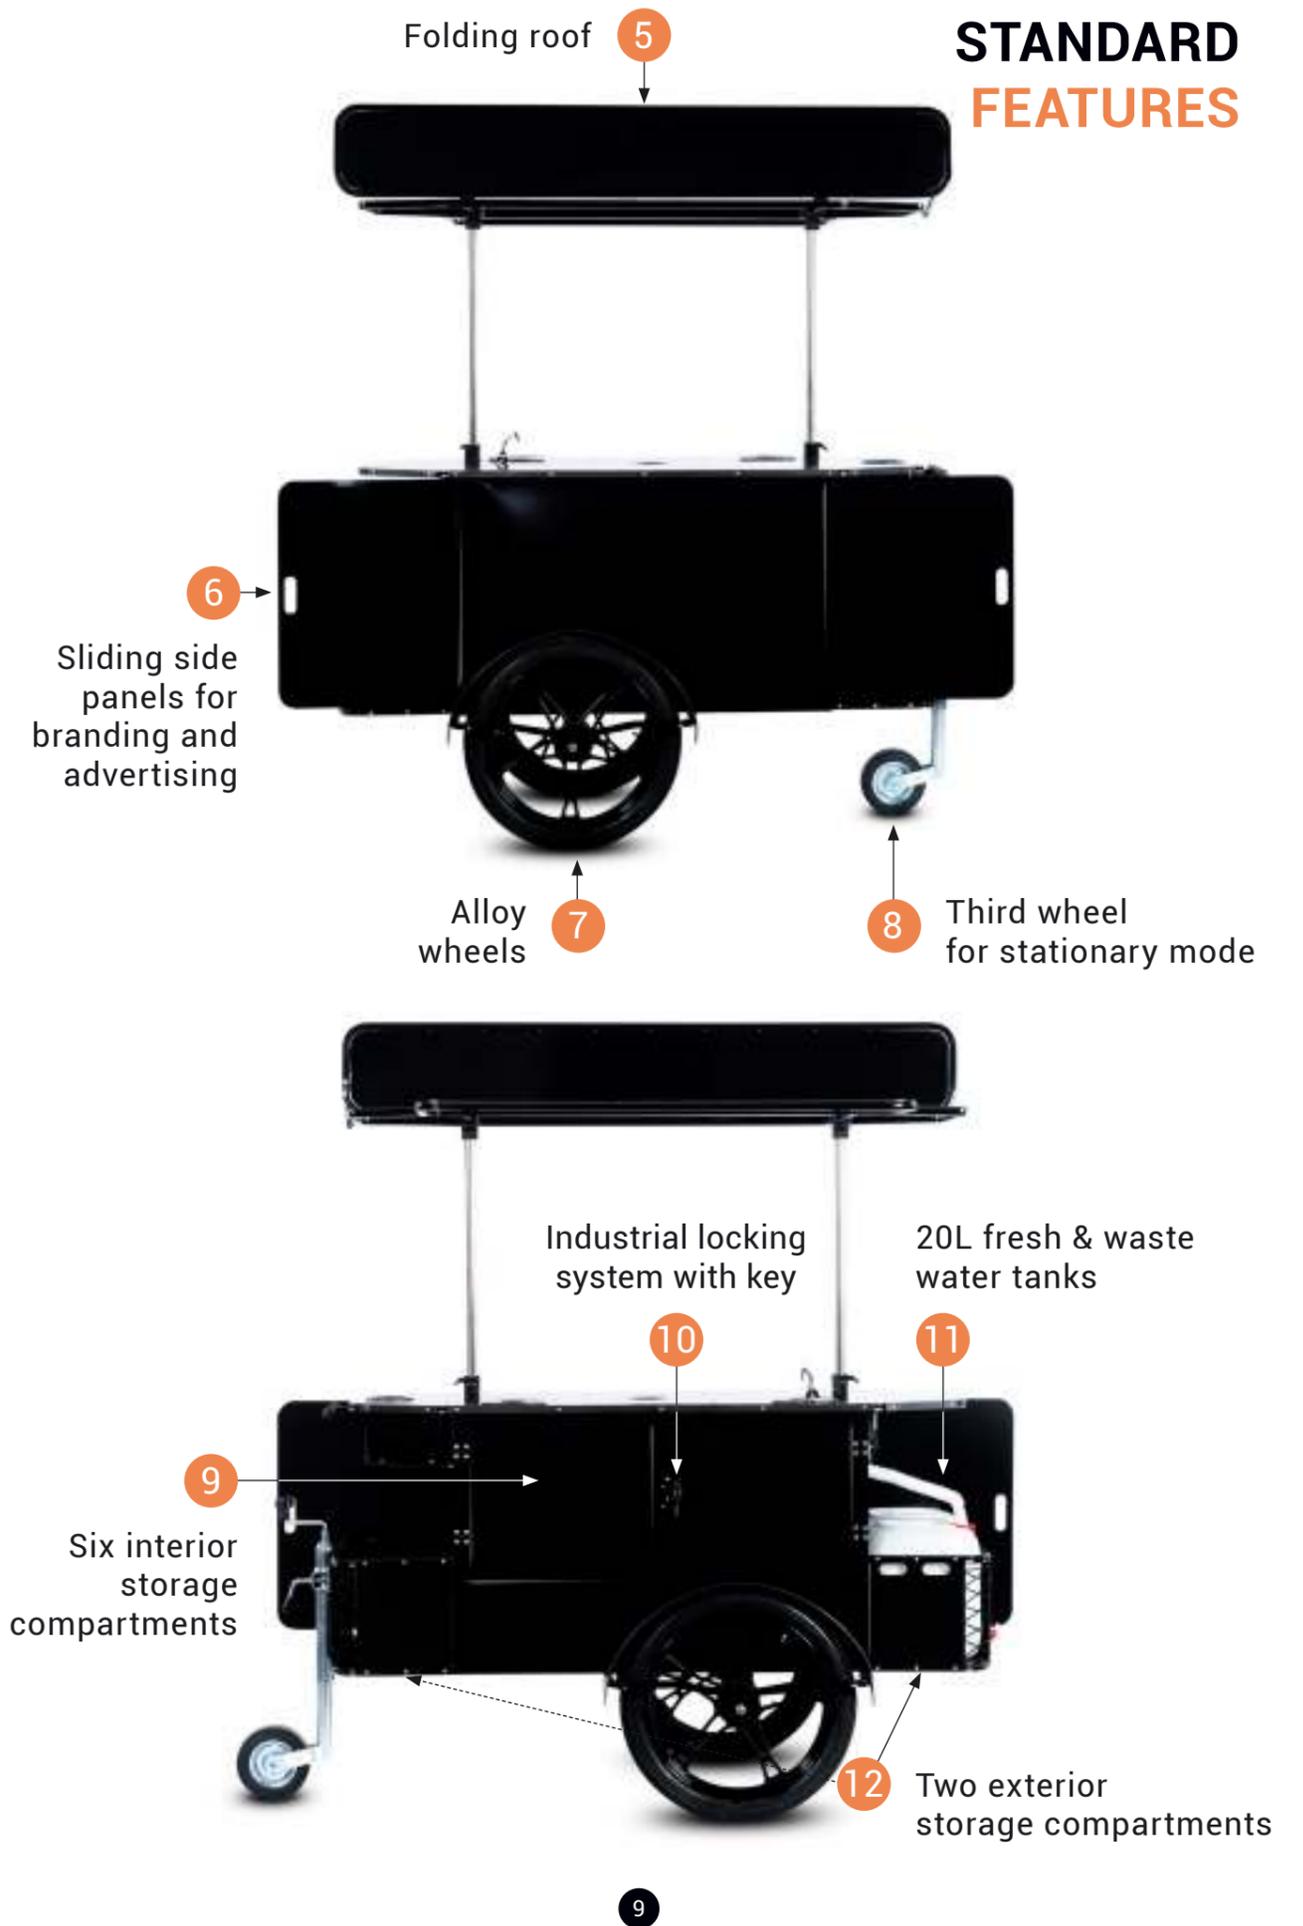

# Basic Coffee Cart Features

Wrapped entirely in steel, the Basic Coffee Cart features a food-grade stainless steel countertop, six interior storage compartments and two open storage spaces (one on each side of the cart).

The cart is available in two colour schemes, black or white, and can be branded with custom graphics either by us or by the end user.

## STANDARD FEATURES

# Standard & Custom

Our Food Carts portfolio includes a broad range of projects, both standard and custom. But, beyond their shared features, each one of our carts is unique, just like the businesses we help our customers build and grow.

1

Our Basic Coffee Cart is an affordable off-the-shelf solution for entrepreneurs and businesses of all sizes.

2

Fully customizable, the Basic Coffee Cart can be outfitted on demand with accessories for every purpose and commercial requirement, such as coffee equipment, folding countertop extensions, fridge, etc.

# Technical Specs

Made of highest quality materials using cutting edge manufacturing techniques, our Basic Coffee Cart is built to be durable and practical.

SPECS	DETAILS
Cart body	Strong steel frame wrapped in powder coated steel sheet
Colours	Black / white; alternatively, it can be painted in any RAL colour
Advertising space	A total of 1.7 square meters of advertising space (central panel, left & right sliding panels and front roof panel)
Roof	The roof consists of three parts: 1. The main part with the same shape and size as the countertop 2. a secondary folding roof panel for the vendor 3. a third folding roof panel intended for brand signage
Countertop	Food-grade stainless steel countertop; alternatively, it can be outfitted with a wooden countertop
Storage space (interior & exterior)	The interior space is divided into six storage compartments; two exterior storage compartments are included, one on each side of the cart
Wheels	Two main motorcycle wheels made of aluminum that can withstand weights of up to 350 kg; the third wheel is to be used only in stationary or push cart mode
Mobility - Traction modes	Push cart or bike-towed
Stability	Highly stable both when towed and in stationary mode; easily maneuvered as a push cart thanks to its oscillating third wheel
Safety	The steel covered panels and the lockable doors ensure the cart's safety when not in use
Weight	130 kg
Warranty	24 months
