

THE CREPE CART

IMMERSIVE  
BUSINESS SOLUTIONS

# The Most Versatile Crepe Cart

A fully equipped creperie on wheels, this is the most versatile and efficient crepe cart on the market.

Designed for both outdoor and indoor use, it can be maneuvered as a push cart or set up as a stationary crepe stand in a permanent location. By pairing it with an electric bicycle, the cart becomes a crepe bike, ready to take on new routes and destinations every day.

Its versatility, features and ease of use make it perfect for selling crepes just about anywhere, from parks, squares and busy sidewalks to shopping malls and event venues. It can also be rented to private events or run as a fully mobile catering business.

This makes the Crepe Cart a lucrative investment for starting entrepreneurs as well as a smart addition to already established businesses such as restaurants and hotels, event and entertainment venues, beach bars etc.

# ONE CREPE CART

## TWO TRACTION MODES

The Crepe Cart can be connected to and towed by any ebike thanks to our patent-pending universal saddle hitch system.

### CREPE BIKE MODE

4

### PUSH CART MODE

For increased maneuverability in outdoor and indoor locations, the Crepe Cart is equipped with an ergonomic handlebar.

5

# The first Crepe Cart in the world designed to be towed by an e-bike

Paired with our specially designed electric chopper, the Crepe Cart becomes a sleek Crepe Bike ready to take on the best spots in town.

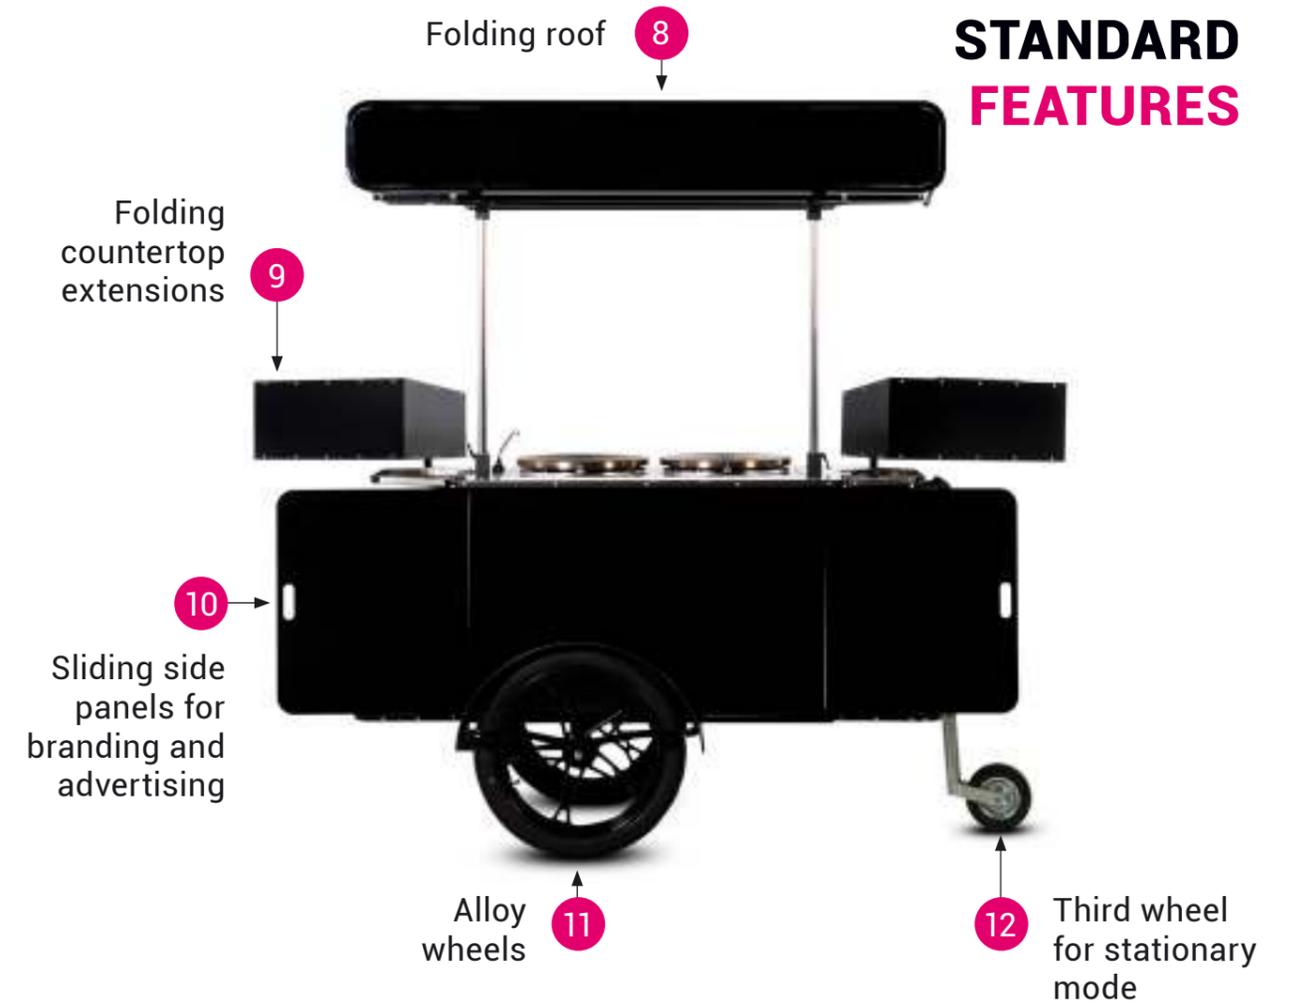

# Crepe Cart Features

Wrapped entirely in a stainless steel sheet, the Crepe Cart features a food-grade stainless steel countertop, six interior storage compartments and two open storage spaces (one on each side of the cart).

This model comes equipped with a gas-powered Krampouz double crepe maker.

The cart is available in two colour schemes, black or white, and can be branded with custom graphics either by us or by the end user.

## STANDARD FEATURES

# Standard & Custom

Our Food Carts portfolio includes a broad range of projects, both standard and custom. But, beyond their shared features, each one of our carts is unique, just like the businesses we help our customers build and grow.

- 1 Our Crepe Cart is an off-the-shelf solution for entrepreneurs and businesses of all sizes. It can be operated virtually anywhere and it comes equipped with everything you need for a ready-to-use creperie on wheels.
- 2 Fully customizable, the Crepe Cart can be outfitted on demand with accessories for every purpose and commercial requirement, such as folding countertop extensions, countertop LED lights, fridge, etc.

option required

# Technical Specs

Hand-built in our modern EU factory, the Crepe Cart is made of highest quality materials using cutting edge manufacturing techniques.

SPECS	DETAILS
Cart body	Strong steel frame wrapped in powder coated steel sheet
Colours	Black / white; alternatively, it can be painted in any RAL colour
Advertising space	A total of 1.7 square meters of advertising space (central panel, left & right sliding panels and front roof panel)
Roof	The roof consists of three parts: 1. The main part with the same shape and size as the countertop 2. a secondary folding roof panel for the vendor 3. a third folding roof panel intended for brand signage
Countertop	Food-grade stainless steel countertop
Storage space (interior & exterior)	The interior space is divided into six storage compartments; two exterior storage compartments are included, one on each side of the cart
Wheels	Two main motorcycle wheels made of aluminum that can withstand weights of up to 350 kg; the third wheel is to be used only in stationary or push cart mode
Mobility - Traction modes	Push cart or bike-towed
Stability	Highly stable both when towed and in stationary mode; easily maneuvered as a push cart thanks to its oscillating third wheel
Safety	The steel covered panels and the lockable doors ensure the cart's safety when not in use
Weight	155 kg
Warranty	24 months
