

THE ICE CREAM  
CART

IMMERSIVE  
BUSINESS SOLUTIONS

# The Most Versatile Ice Cream Cart

A ready-to-use ice cream shop on wheels, this is the most versatile and efficient Ice Cream Cart on the market.

Outfitted with all the necessary equipment and suitable for both outdoor and indoor use, the Ice Cream Cart can be operated virtually anywhere, from parks, markets and neighbourhoods buzzing with pedestrian traffic to private and commercial venues.

As it is, the cart can be set up as a pop-up ice cream shop or as an ice cream stall in indoor locations. Paired with an electric bicycle, the cart becomes an Ice Cream Bike, allowing you to navigate with ease between the busiest spots in town.

Perfect for selling packaged ice cream or for promoting a newly launched ice cream flavour, the Ice Cream Cart is a profitable investment for starting entrepreneurs as well as for established businesses seeking to diversify their marketing channels.

# ONE ICE CREAM CART TWO TRACTION MODES

The Ice Cream Cart can be connected to and towed by any ebike thanks to our patent-pending universal saddle hitch system.

## ICE CREAM BIKE MODE

4

## PUSH CART MODE

For increased maneuverability in outdoor and indoor locations, the Ice Cream Cart is equipped with an ergonomic handlebar.

5

# The first Ice Cream Cart in the world designed to be towed by an e-bike

Paired with our specially designed electric chopper, the Ice Cream Cart becomes a sleek Ice Cream Bike ready to take on the best spots in town.

# Ice Cream Cart Features

Fully covered in a stainless steel sheet, the Ice Cream Cart features a food-grade stainless steel countertop, six interior storage compartments and two open storage spaces (one on each side of the cart).

The standard model comes equipped with a 98L 12V DC fridge (with a temperature range of -18° Celsius up to 5° Celsius) and with a 150W solar panel.

The cart is available in two colour schemes, white or black, and can be branded with custom graphics either by us or by the end user.

## STANDARD FEATURES

# Standard & Custom

Our Food Carts portfolio includes a broad range of projects, both standard and custom. But, beyond their shared features, each one of our carts is unique, just like the businesses we help our customers build and grow.

1

Our Ice Cream Cart is an off-the-shelf solution for entrepreneurs and businesses of all sizes. Fully equipped with everything you need for an ice cream shop on wheels, the cart comes ready to use straight out of the box.

2

Completely customizable, the Ice Cream Cart can be outfitted on demand with accessories for every purpose and commercial requirement, such as wooden countertop, folding countertop extensions, countertop LED lights, cup dispenser etc.

# Optional Features

## STAINLESS STEEL FOLDING COUNTERTOPS

220V fridge

Insulated polystyrene cold storage boxes

Lateral folding countertops

Polished wood countertop

Bluetooth battery monitor

Custom RAL colours

Countertop LED lights

Stainless steel cup dispenser

Any other option required

# Technical Specs

Durable and practical, our Ice Cream Cart is made of highest quality materials using cutting edge manufacturing techniques.

SPECS	DETAILS
Cart body	Strong steel frame wrapped in powder coated steel sheet
Colours	Black / white; alternatively, it can be painted in any RAL colour
Advertising space	A total of 1.7 square meters of advertising space (central panel, left & right sliding panels and front roof panel)
Roof	The roof consists of three parts: 1. The main part with the same shape and size as the countertop 2. a secondary folding roof panel for the vendor 3. a third folding roof panel intended for brand signage
Countertop	Food-grade stainless steel countertop; alternatively, it can be outfitted with a wooden countertop
Storage space (interior & exterior)	The interior space is divided into six storage compartments; two exterior storage compartments are included, one on each side of the cart
Wheels	Two main motorcycle wheels made of aluminum that can withstand weights of up to 350 kg; the third wheel is to be used only in stationary or push cart mode
Mobility - Traction modes	Push cart or bike-towed
Stability	Highly stable both when towed and in stationary mode; easily maneuvered as a push cart thanks to its oscillating third wheel
Safety	The steel covered panels and the lockable doors ensure the cart's safety when not in use
Weight	140 kg
