Temperature range	-5 to -20 Celsius degrees
Countertop	Food grade stainless steel
Energy consumption	350W - 5,9 Kwh/24h
Ice Cream storage	<ul style="list-style-type: none"><li>• 112 liters of ice cream, in 16 carapinas of 7 liter each</li><li>• 8 primary carapinas + 8 backup ( stacked beneath )</li><li>• 7 liters capacity for each carapina</li></ul>
Climate class	4 (30°C-55%RH) G3
Machine Size	1112 length x 710 width x 1007 height - milimeters

# EXTRA OPTIONS

## SPECS

## DETAILS

### Solar panel system

This system ensures the cart operates in two modes: on a 12V battery with an 8-hour autonomy or on-grid at 220V or 110V

- Solar panel - 200W
- 12V to 220V switch - easy to switch from 220v to 12v
- 220V/110V electrical panel with 16A bipolar circuit breaker, 12V fuse - 200A.
- 12V battery charger
- Pure sine wave inverter 3000W - 12-220V
- Battery holder - battery not included
- Double 220V socket, 16A - capacity 3kW

### Roof led lights

This system is mounted under the roof and illuminates the countertop surface at night

### Bicycle traction system

This system allows the addition of a third wheel with a mounting system for both the cart and the bicycle, making the cart easy to tow, effortless, and with its own braking system

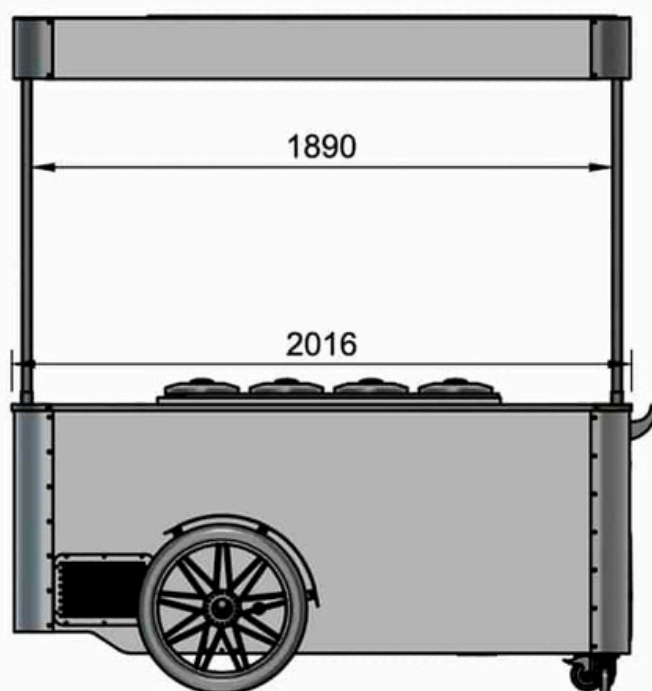

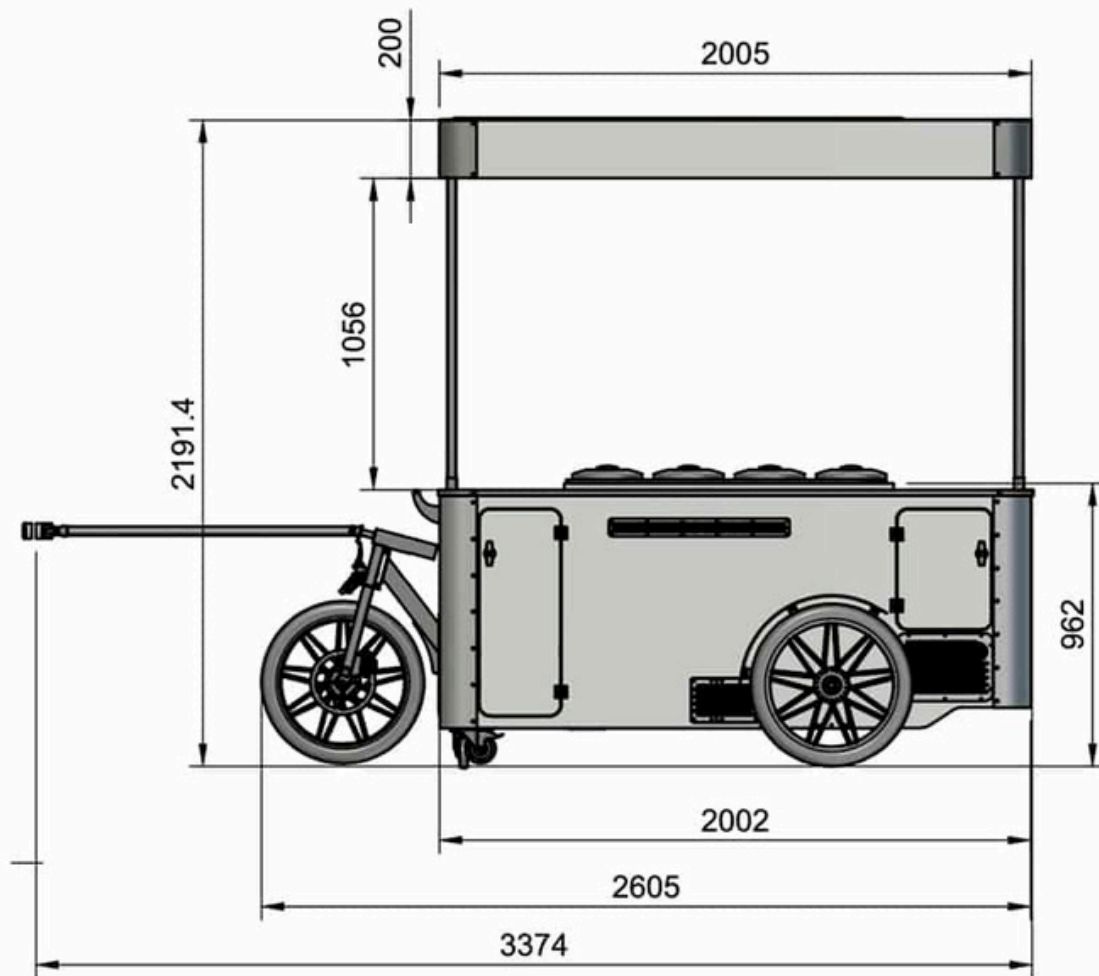

- Traction arm with seat post clamp system
- 17" motorcycle wheel mounted on a fork with bearing rotation system
- Hydraulic disc brake system (the cart will brake independently without putting pressure on the bicycle) breaker, 12V fuse - 200A.
- Front cart connection system with screws

### Winch for loading the cart into van or trailer

Allows the cart to be easily loaded and unloaded into a van or trailer by a single person using a remote control. This system requires an additional 12V-50Ah battery.

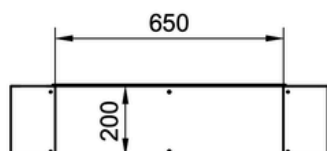

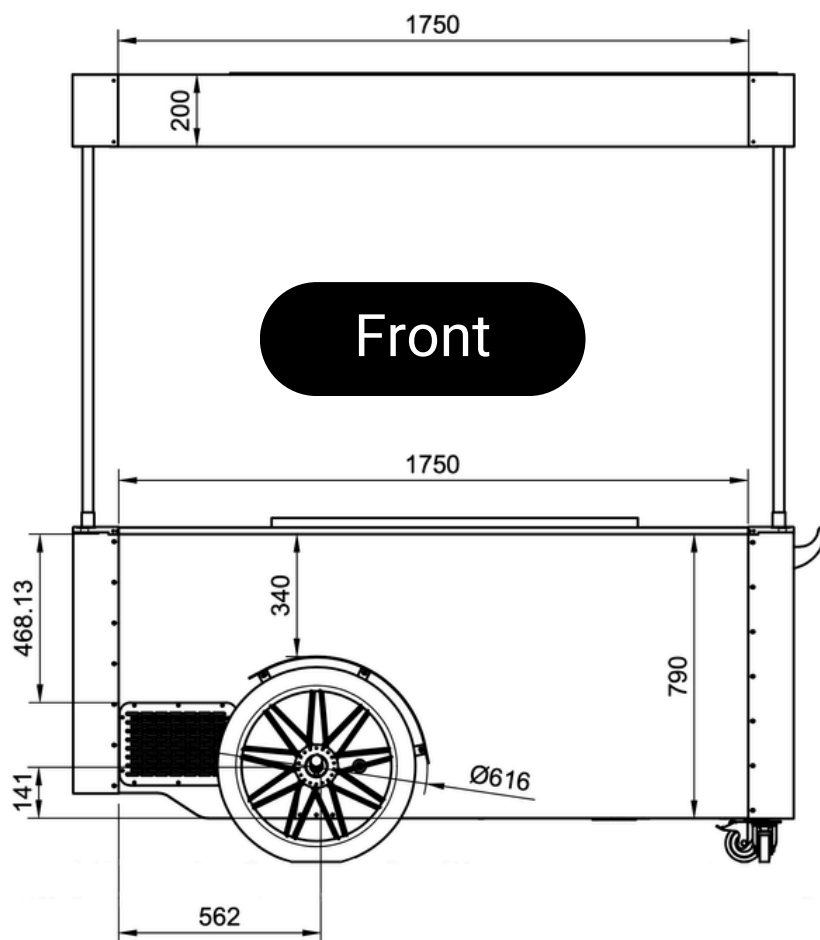

- Towing capacity 900kg
- Power: 12V
